Peer Reviewed Publications

“The Veiled Causes of Maternal Mortality in India”, Research Ambition, 2017, 2(1), 343-356

An attempt has been made in this study, to bring out two factors, domestic violence and access to safe sanitation facilities as important factors causing higher maternal deaths in India over the period 1990-2015.

“Critical Study of Border Carbon Adjustments”, Research Inspiration, 2017, 2(3), 22-33

The paper seeks to refute the imposition of Border Carbon Adjustments both from theoretical and legal perspectives and fails to find any grounds for their imposition.

“Deciphering the impact of speculation on food prices during the global finance crisis of 2008”; International Journal of Management, Administration, Leadership & Education, 2017, 3(1), 1

The paper is a literature review of various empirical studies to ascertain whether financialization of agricultural commodities, increased trading of index funds and the speculation by non-commercial traders led to unprecedented increases in agricultural prices post 2008 crisis.

“A Critique of the IMF Approach in the Asian Crisis”, Academic Views and Reviews, 2015, 5(1), 25-37

The paper conducts a brief review of literature on the East Asian Crisis and concludes that the policies followed by IMF were more in favour of the Wall street, shrouded by the interests of advanced economies.

“An Overview of the Fiscal Responsibility and Budget Management Act in India”, Global Education Society and Development, 2015, 7(1), 18-39

The paper critically analyses the plan outlay and expenditure pattern of the centre and states over the period 2000-2013 and suggests that any developing economy should abstain from one size fits all policies.

Work in Progress

“Testing the Validity of Deposits Channel of Monetary Policy: The Case of India, 2007-08 to 2016-17.”

The paper attempts to test the existence of a new channel of monetary policy – Deposits Channel by Dreschler et.al. (2017) in India, which seeks to explain the working of monetary transmission through banks’ market power over deposits.

“Evolution of Central Bank Communication in India: Broad Trends Since 2000s”

Empirical analysis of RBI’s communication strategy during periods of crisis, governor regimes and policy objectives.

Paper Presentation

“CAS Young Scholar’s Seminar 2018”, UGC CAS programme of CESP, JNU
